

Swedish Massage and Light Touch Therapy for Fatigue Related to Breast Cancer Treatment

You may be able to participate in this research if you:

- Are a woman between the ages of 18 and 65
- Have been treated for breast cancer in the last 6 months to 1 year
- Are suffering from fatigue related to your cancer treatment

Participants who qualify will receive

- Medical and psychiatric evaluations at no cost
- Will be randomly assigned to one of three groups to receive:
 - 6 weeks of Swedish Massage Therapy
 - 6 weeks of Light Touch Therapy, or
 - a 6 week wait, followed by 6 weeks of Swedish Massage Therapy or Light Touch Therapy.
- Participation is expected to last for a total of 7-12 weeks,
- Participants will be compensated up to \$400 for completing the entire study.
- Participants will be reimbursed for parking.

No medication is provided as a part of this study.

Clinic visits will take place at Emory Briarcliff Campus, 1256 Briarcliff Rd NE.

All involvement is confidential.

Study Staff will contact you by phone or email to provide you with additional study information, or to assess your eligibility for this study.
